Weight : 0.32 kg

Additional information

All our radiators except R11CHR have been designed to allow for the fitting of an electric summer heating kit. This means that you can have warm towel rails all year round! Our radiators contain steel and are therefore only suitable for hot water (closed) central heating systems.

All electric heating kits are rated IP44

During electric heating use the valves must be left open so the radiator is full of water to ensure correct performance.

Compliance/Approvals:

BS EN60730-2-9:2002

Automatic electrical controls for household and similar use. Particular requirements for temperature sensing controls

Chrome plated to **BS EN248:2002**

Sanitary tapware. General specification for electro deposited coatings of Ni-Cr
