ERRORS & OMISSIONS

In the interest of continuing design and development and product improvement, Kerasan reserve the right to change colour, designs and product specifications without prior notice.

GENERAL

The colours and finishes reproduced in this brochure are as accurate as the photography and printing process allows but may vary from the actual colours. Product sizes stated are nominal and should be checked against product. It is strongly advised that all bathrooms are well heated and ventilated. It is the responsibility of the individual installer to

ensure that these products are fitted correctly and in line with the instructions provided. Failure to comply with the recommended fitting instructions will invalidate the guarantee.

INSTALLATION

When installing a wall hung pan or wash basin, please ensure that appropriate fixings or suitable framework are used. When purchasing a wall hung pan, wash basin or bidet on its own, Kerasan does not supply any fixings.

We strongly recommend all furniture and ceramics be fitted to a tiled surface, not tiled up to, this will assist any future maintenance. Due to the weight of some products, you must ensure that the walls, to which fixing is to be carried out, are of a suitable construction to support the product.

CERAMICS

Vitreous china is an extremely hard, non-porous product; but it is also breakable and therefore must not be put under stress during installation. Basin waste fittings, if over-tightened will create stress within the ceramic material which may, in time, cause the failure of the product. Waste fittings should be carefully sealed in silicone and the back nut hand tightened, one additional and final quarter turn (using a suitable spanner is sufficient) to create the required watertight seal. All products should be inspected before attempting installation.

CARE AND CLEANING

Kerasan furniture, ceramic, and accessories are made to the highest standards. By following the simple guidelines below they will provide you with many years of enjoyable service.

General: NEVER use products containing bleach, caustic soda, cleaners of a gritty or abrasive nature or so called "glass and mirror" cleaning products.

Mirrors, cabinets: Clean only with a micro fibre cloth, NEVER use "glass and mirror" cleaning products.

Sanitaryware, toilet seats and ceramics: Sanitaryware/ceramics should be cleaned after use by applying a little cream-type cleaner using a sponge or damp cloth and rinsed thoroughly with clean water. In hard water areas a good quality lime-scale remover can be applied.

Toilet seats should only be cleaned using a diluted mild detergent e.g. washing up liquid or warm non-abrasive soapy water; products containing bleach can lead to staining.

Toilet seat hinges should be cleaned ONLY using a moist soft or micro fibre cloth. Any stubborn marks can be removed with diluted mild detergent e.g. washing up liquid. All Kerasan products should be cleaned with warm soapy water.
